Create A Database In Cloudant DB

Aim: To create a database in Cloudbant DB to store location data.

Steps followed:

- Logged in to IBM Cloud account
- Navigated to `./resources``
- Clicked on the "Create Resource +" button
- Searched for "Cloudbant"
- Chose the "Lite Version" and clicked on "Create"

- The Cloudant database resource was created successfully

- .Clicked on Launch Dashboard

- Clicked on "Create Database". Entered "meowman" as the database name and the "Non-partitioned" option

- .The database “meowman” was created successfully

Result:

A database to store the location data was created successfully on Cloudant DB
